Graduation speech

Welcome ladies and gentlemen to Victory's graduating class of 2019, it's a privilege to stand and talk among my family, friends and staff, my time spent with all you people is an experience in which will be retained in my memory until the end of my journey. I know I can speak for everyone when I say we worked hard for this day to come. It's great feeling when you achieve the thing you most desire after a long time of working for it.

I hope that all your future endeavors conclude successfully without any difficulties. Anything is possible, keep a clear mind and focus on what you wish for. Now I'd like to give credit to everyone that help get to this graduation into fruition, it would not be possible without you all.
